Contents

No. 1

1 *A Review:* Agitation effects on microbial cell–cell interactions
M. STRATFORD & P. D. G. WILSON

7 Cell wall composition of ethambutol susceptible and resistant strains of *Mycobacterium smegmatis* ATCC 607
MONICA SAREEN & G. K. KHULLER

11 Storage deterioration of maize having pre-harvest infection with *Aspergillus flavus*
D. CHATTERJEE, B. K. CHATTOPADHYAY & S. K. MUKHERJEE

15 Antimicrobial activity of *Enterococcus faecium* against *Listeria* spp.
A. M. MCKAY

18 Deoxyribonuclease activity in rumen bacteria
H. J. FLINT & A. M. THOMSON

22 Solid-state refuse methanogenic fermentation: control and promotion by water addition
G. B. KASALI, E. SENIOR & IRENE A. WATSON-CRAIK

27 Analysis of organic acids in fruit-bodies of *Tricholoma giganteum* by high performance liquid chromatography
T. FUJITA, S. KOMEMUSHI & K. YAMAGATA

30 The rapid detection of direct-acting DNA mutagens by electrical impedence with a DNA repair-deficient strain of *Escherichia coli*
S. J. FORSYTHE

33 Inhibitory effect of oregano and thyme essential oils on moulds and foodborne bacteria
N. PASTER, B. J. JUVEN, E. SHAAYA, M. MENASHEROV, R. NITZAN, H. WEISSLOWICZ & U. RAVID

38 Inhibition of influenza virus infection by tea
MIKIO NAKAYAMA, MASAKO TODA, SACHIE OKUBO & TADAKATSU SHIMAMURA

41 Degradation of polygalacturonic acid by *Saccharomyces cerevisiae*
A. M. MCKAY

45 Haemagglutinating properties of *Haemophilus ducreyi*
D. ABECK, H. C. KORTING, R. WAGNER & R. C. BALLARD

48 Taxonomic significance of differences in DNA methylation within the '*Mycoplasma mycoides* cluster' detected with restriction endonucleases *Mbo*I and *Dpn*I
A. D. BERGEMANN, JANE C. WHEATLEY & L. R. FINCH

52 Book reviews

No. 2

55 *A Review:* The potential for food irradiation
MARGARET F. PATTERSON

62 High efficiency electroporation of *Lactococcus lactis* subsp. *lactis* LM0230 with plasmid pGB301
SUSAN DORNAN & M. A. COLLINS

65 Refuse acidogenesis and methanogenesis: effects of fermentation gases (H_2, CO_2, CH_4)
G. B. KASALI, E. SENIOR & IRENE WATSON-CRAIK

69 *Salmonella* detection by a modified lysine conductance medium
I. D. OGDEN

73 Localization of nif genes on large plasmids in *Rhizobium galegae*
SONJA SELENSKA-TRAJKOVA, GALINA RADEVA, LILIANA GIGOVA & KALTCHO MARKOV

77 Effect of osmolarity on aminoglycoside susceptibility in Gram-negative bacteria
MÔNICA B. RODRIGUEZ, LÚCIA H. C. MOYSÉS & S. O. P. COSTA

81 Genetic transformation of intact cells of *Lactobacillus curvatus* Lc2-c and *Lact. sake* Ls2 by electroporation
W. GAIER, R. F. VOGEL & W. P. HAMMES
84 Improvements to a lysine medium for detection of salmonellas by electrical conductance
P. J. SMITH, F. J. BOLTON, V. E. GAYNER & A. ECCLES
87 Attached and free-living dividing bacteria in two aquatic systems
J. IRIBERRI, M. UNANUE, B. AYO, I. BARCINA & L. EGEA
90 Lactoperoxidase and thiocyanate contents of goats' milk during lactation
PALOMA ZAPICO, P. GAYA, M. NUÑEZ & MARGARITA MEDINA
93 Thermophilic campylobacters in two sewage treatment plants in Libya
M. BETAIEB & K. JONES
96 Development of a highly specific diagnostic 23S rDNA oligonucleotide probe for *Mycobacterium leprae*
W. LIESACK, C. PITULLE & E. STACKEBRANDT
100 The effect of ciliate protozoa on the turnover of bacterial and fungal protein in the rumen of sheep
C. J. NEWBOLD & K. HILLMAN
103 Preformed enzyme profiling of *Helicobacter pylori* and *Helicobacter mustalae* from human and animal sources
R. J. OWEN & M. DESAI
106 Book reviews

No. 3

109 *A Review:* Epidemiological methods in the investigation of food poisoning outbreaks
S. R. PALMER
116 Occurrence and survival of indicator/pathogenic bacteria in *kusaya* gravy
T. FUJII, Y. TAKAOKA & M. OKUZUMI
119 An improved amperometric immunosensor for the detection and enumeration of protein A-bearing *Staphylococcus aureus*
B. MIRHABIBOLLAHI, JOY L. BROOKS & R. G. KROLL
123 Habituation to alkali and increased u.v.-resistance in DNA repair-proficient and -deficient strains of *Escherichia coli* grown at pH 9·0
M. GOODSON & R. J. ROWBURY
126 Viral and bacterial contamination of mussels (*Mytilus edulis*) exposed in an unpolluted marine environment
CHANTAL JEHL-PIETRI, B. HUGUES & R. DELOINCE
130 Effect of three substituted cadaverines on infection of barley with powdery mildew and brown rust
A. M. BROWN, D. R. WALTERS & D. J. ROBINS
133 Identification by quantitative gas chromatography of common *Fusobacterium* species isolated from clinical specimens
J. P. CARLIER
137 Isolation of bacteria and fungi from human sputum and faeces using carbon monoxide as source of energy and carbon
M. R. BARER, KATHERINE ORR & E. WILLIAMS
141 Fusaric acid and other metabolite production in *Fusarium oxysporum* f. sp. *vasinfectum*
J. M. LUZ, R. R. M. PATERSON & D. BRAYFORD
145 Characteristics of *Staphylococcus aureus* associated with meat products and meat workers
B. K. ISIGIDI, L. A. DEVRIESE, C. GODARD & J. VAN HOOF
148 Inhibition of fungal growth and infection in maize grains by spice oils
D. CHATTERJEE
152 Antibacterial testing of metal ions using a chemically defined medium
J. A. RITCHIE & C. L. JONES

155 An elective and selective isolation medium for *Bifidobacterium* spp.
H. BEERENS

158 Detection of *Listeria* species and *Listeria monocytogenes* using polymerase chain reaction
P. M. BORDER, J. J. HOWARD, G. S. PLASTOW & K. W. SIGGENS

163 Evaluation of γ-ray irradiation of cows' colostrum for *Brucella abortus*, *Escherichia coli* K99, *Salmonella dublin* and *Mycobacterium paratuberculosis* decontamination
B. GARIN-BASTUJI, B. PERRIN, MARIE-FRANÇOISE THOREL & J. L. MARTEL

167 Book reviews

No. 4

171 *Opinion:* Antimicrobial activity associated with non-antimicrobial agents
A. D. RUSSELL

173 *A Review:* Thermostable fungal β-glucosidases
F. STUTZENBERGER

179 Isolation of *Clostridium botulinum* from tropical fish
K. V. LALITHA & K. M. IYER

182 Comparison of the TECRA Salmonella Immunossay with the conventional culture method
M. LAMBIRI, A. MAVRIDOU, S. C. RICHARDSON & J. A. PAPADAKIS

185 Antagonism of lactic acid bacteria from goats' milk against pathogenic strains assessed by the 'sandwich method'
Y. HECHARD, M. DHERBOMEZ, Y. CENATIEMPO & F. LETELLIER

189 Typing of *Legionella pneumophila* serogroups 2–14 strains by analysis of restriction fragment length polymorphisms
T. G. HARRISON, N. A. SAUNDERS, A. HATHTHOTUWA, N. DOSHI & A. G. TAYLOR

193 The effect of air on the response of salmonellas in conductance media
I. D. OGDEN

197 The influence of fungitoxicants on growth and aflatoxin production by *Aspergillus flavus*
A. MASOOD & K. S. RANJAN

202 A characteristic phenolic glycolipid antigen from *Mycobacterium haemophilum*
G. S. BESRA, D. E. MINNIKIN, L. RIGOUTS, F. PORTAELS & M. RIDELL

205 Use of a rapid bioluminescence assay for detecting cyanobacterial microcystin toxicity
L. A. LAWTON, D. L. CAMPBELL, K. A. BEATTIE & G. A. CODD

208 A highly sensitive assay for adenosine triphosphate employing an improved firefly luciferase reagent
W. J. SIMPSON, J. L. FERNANDEZ, J. R. M. HAMMOND, P. S. SENIOR, B. J. MCCARTHY, P. H. JAGO, S. SIDOROWICZ, S. A. A. JASSIM & S. P. DENYER

211 A rapid, quantitative microplate assay for NAD-linked D-mannitol dehydrogenase
J. MILLS & N. ALLISON

214 Cloning and expression of alpha-amylase from *Bacillus amyloliquefaciens* in a stable plasmid vector in *Lactobacillus plantarum*
S. JONES & P. J. WARNER

220 Characterization and molecular cloning of *Bifidobacterium longum* cryptic plasmid pMB1
D. MATTEUZZI, PATRIZIA BRIGIDI, MADDALENA ROSSI & DIANA DI GIOIA

224 Qualitative and quantitative assay for detection of callus degrading activity by bacteria
K. T. HOLLAND, E. M. GRIBBON & J. MARSHALL

228 Book reviews

No. 5

231 *Opinion:* Glutaraldehyde—new aspects
E. G. M. POWER & A. D. RUSSELL

233 A submerged-coil heating apparatus for investigating thermal inactivation of micro-organisms
M. B. COLE & M. V. JONES

236 pIF21, a versatile donor of transposons Tn*1*, Tn*5* and Tn*7* for tagging and mobilizing cryptic and non-selective plasmids
I. M. FEAVERS, A. J. FIFE & C. R. HARWOOD

240 Cloning vectors derived from *Streptomyces niveus* plasmid pSN2
H. A. HUSSAIN & D. A. RITCHIE

244 A comparison between biochemical tests and the 'CAMP' reaction for identification of *Aeromonas* spp.
R. A. BEN-RUWIN, S. ROGERS, K. WALTER & R. W. A. PARK

247 Extracellular production of a heat-stable somatic antigen by *Bacillus thuringiensis*
A. MIKE, M. OHBA & K. AIZAWA

251 The fermentability of polysaccharides by mixed human faecal bacteria in relation to their suitability as bulk-forming laxatives
G. R. GIBSON, S. MACFARLANE & J. H. CUMMINGS

255 A conductance-based surface disinfection test for food hygiene
J. T. HOLAH, C. HIGGS, S. ROBINSON, D. WORTHINGTON & H. SPENCELEY

260 Biodegradation of hydrocarbons by an extremely halophilic archaebacterium
J. C. BERTRAND, M. ALMALLAH, M. ACQUAVIVA & G. MILLE

264 Production of elastase in staphylococci isolated from goats
J. VALLE, S. PIRIZ, E. MATEOS & S. VADILLO

267 Book reviews

No. 6

269 *Opinion: Cryptosporidium*—a water-borne hazard
J. BADENOCH

271 *A Review: Cryptosporidium* and water
M. R. BARER & A. E. WRIGHT

278 Formation of histamine and tyramine by lactic acid bacteria in decarboxylase assay medium
N. CHOUDHURY, W. HANSEN, D. ENGESSER, W. P. HAMMES & W. H. HOLZAPFEL

282 A modified direct epifluorescent filter technique for the detection and enumeration of yeast in yoghurt
M. T. ROWE & G. J. MCCANN

286 Primary interactions of taurultam solutions with a urinary tract clinical isolate of *Escherichia coli* and mammalian erythrocytes
D. S. JONES, S. P. GORMAN, A. D. WOOLFSON & D. F. MCCAFFERTY

290 Biochemical fingerprints of *Legionella* spp. by the BIOLOG system: presumptive identification of clinical and environmental isolates
R. ARMON, I. POTASMAN & M. GREEN

293 Enzyme-linked immunosorbent assays for detection of *Pseudomonas fluorescens* in sediment samples
O. NYBROE, A. JOHANSEN & M. LAAKE

297 Book reviews
